EAS IV DATA CONVERSION

EAS IV Data Conversion

Data Conversion:

The process of generating files on the EAS III ser
transferring/making them available on the EAS I
workstation.

EAS IV Data Conversion

Personnel who complete data conversion should b knowledgeable about using EAS III and EAS IV.

Specific instructions are provided in Appendix E o EAS IV Software Installation Plan (SIP).

EAS IV Data Conversion

Requires EAS IV to be loaded on the server and client workstations.

Requires FTP software to be loaded on the client workstations.

EAS IV Data Conversion

Generating the necessary files requires data to already have been processed in EAS III.

Only those facilities/sites who have processed EAS data for current FY will be required to convert da

EAS IV Data Conversion

The following files require conversion

ASD
Financial - STANFINS
Personnel - UCAPERS
CHCS (Data Set) - SAS
Resp Therapy/Pulm Function
Patient Acuity - WMSN
Workload - WAM

EAS IV Data Conversion

Generating the ASD Flat File in EAS III

- **On the EAS III Server, at the EAS III UNIX prompt, enter:**
  msmEAS:XXX
- **At the “>” prompt, enter: D ^CONVERT**
